PHILOSOPHY, PURPOSE & OBJECTIVE

Rizzieri School for the Healing Arts seeks to prepare its students for successful employment through diversified training, professional standards and practical business application. We believe that learning is best facilitated in a safe and nurturing environment. To achieve this, classes are serious and structured, yet relaxed and informal.

Team building exercises encourage cohesiveness during orientation. From this support structure, trust and respect are established to further

prepare each student for the unique educational experience in the Healing Arts. We feel that the student's individual journey of self-discovery is equally as important as their academic education.

Community Outreach is an integral part of the program. Both students and teachers participate in community events designed to promote public awareness of the benefits of bodywork. In addition, the student clinic provides students with invaluable experience to prepare for the workforce with confidence.

History

The Rizzieri family has been in the business of education since 1924 and has since been in the forefront of beauty and education. It was the explosive growth of the wellness industry that led the Rizzieri family business in a direction.

In 1995, Frank Rizzieri owner and President, incorporated his visionary leadership to merge beauty, wellness, and education into a state-of-the-art facility; a three story, full service salon, spa and educational center emerge to provide the community with quality training programs, consumer workshops, and knowledgeable and dedicated technicians.

In 1998, the increasing demand for qualified massage therapists led to the creation of Rizzieri Institute for Massage Therapy. The popularity of the program enabled the massage school to expand the program to a new building in 2000, within walking distance of the Rizzieri Salon and Spa.

In 2001, the school changed its name to Rizzieri School for the Healing Arts to better reflect the variety of courses offered. Rizzieri School for the Healing Arts continues an open perspective to expand its program curriculum as new modalities and techniques become available, accepted and beneficial in the wellness industry.

In September of 2009, the school once again relocated to its current site, the 2nd floor of the Rizzieri Center in Marlton, NJ.

Rizzieri and its Community

9. There is always more to learn
10. Start your career in less than 1 year!

Meet Our Students

What made you want to become a massage therapist?

Rebecca:

I was interested in holistic healing and felt that massage therapy was an important part of that.

Stephanie:

I wanted to help people and make them feel better about themselves.

Ashley:

I want to get a nutrition degree and felt that massage therapy would be a good thing to have under my belt, but now I just love it.

Rebecca, Stephanie and Ashley enrolled in our July 2010 full time class and will reach their goals in the new year, let us help you reach your goals!
